Casper, May 24.—The first effort to manufacture kerosene oil from the dismanufacture kerosene off the tall at the refinery was begun on Tuesday when sixty barrels of oll were distilled. Additional machinery, however, will be required to make the process a success. It is believed by the refinery management the oll will be of the finest quality when the neces-ary apparatus for manufacturing it secured.

South Pass, Wyo., May 26.—There is unusual activity in mining circles of this vicinity and much prospecting and this vicinity and much prospecting and development work is being done. Mill runs from the Carisa mine show 123 ounces of gold from 45 tons of ore. Fifty tons of the Barr mine ore gave a return of 87½ ounces. During the month of April 22,100 net was realized by the four men working the Garfield mine. The Cregon Gulch placers, located twelve miles south of this place, are being worked by halling the pay gravel to Sweetwater creek where it is siniced with a result of from \$3 to \$7 a lay to the men engaged in the work.

Hyattville, Wyo. May 26.—Black crickets are hatching out by the millions in the southern part of the Big Horn basin. The ground is black with them, and ranchmen have fears for their crops.

date indefinite, to be left to the future discretion of the state committee, the apparent idea being to hold primaries and a state convention during 1885.

Mr. Mossiy, who had seconded Mr. Ware's original motion, objected to any amendment that would bring about primaries or a state convention earlier than 1895. The free silver question, including these motions, was then referred to a committee of fire. Mr. Hill and Mr. Barefoot, for the silver men, and Ware and Walker, gold men, with Chairman Dudley as the fifth member. At 12:30 this committee went to work.

The committee reported in favor of Mr. Ware's original motion with the exception that the date was left blank for the holding of primaries and state convention on the finance question, the state committee to use its discretion as to 1890 or 1895.

The weather is still squally and occassionally snowing.

B. H. Roberts preached at the Society hall Sunday evening to a crowded house, made up of all denominations and no denominations; the pervices, of course, were Mormon, but the fame of the speaker has gone out in the land and people are curious to see the man and lear and judge for themselves of his ability. From the comments made, and the interest manifested by the audience, he made a good impression.

HOUSES BLOWN DOWN.

Southern Country Indulges in a Blizzard.

Gunnison, May 27 .- This is the windiest day in the remembrance of any of our citizens. Several houses have been unroofed and others have been blown entirely down. Dozens of the largest trees have been torn out of the ground, and the streets are covered with all sizes of limbs, torn from the trunks of those standing. A photographer's tent was torn into shreds almost in an instant. Feels like it would freeze tonight.

Last night at the Grand a large audience greeted Goethe's masterpiece "Faust" as presented by a talented company. Mr. John Grifflith, in the little role, was far beyond the expectations of the most ardent craics in the excellence of his work. The other members of the company also merited the application to the Hon. Secretary of the Interior at Washington, by the hundred and they are giving the people a great deal of trouble, especially in the outer portions of the city where there is little or no police protection. A good dog or a gun and especially the latter is very effective where the police are scarce,
